Education

Vellore Institute of Technology

Jun. 2024 – May 2028

B.Tech CSE (Data Science) **CGPA: 8.54/10**

Vellore, Tamil Nadu

- **CBSE:** Class XII – 78.6% (Decent School, Kota)
- Class X – 89.4% (LFL School, Nokha)

Professional Summary

Aspiring Software Engineer and Computer Science undergraduate at VIT Vellore with a strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and Database Management Systems. Passionate about backend development, scalable systems, and AI-powered applications, with hands-on experience building full-stack, REST API, and Retrieval-Augmented Generation (RAG) projects using Java, Python, SQL, and modern development tools.

Relevant Coursework

- Data Structures & Algo
- DBMS
- Operating Systems
- Computer Networks
- Compiler Design
- OOPS
- Artificial Intelligence
- Software Engineering

Projects

AI Resume Analyzer | *Python, Streamlit, OpenAI API*

- Built an ATS-style resume analyzer that evaluates resumes against job descriptions using LLMs.
- Implemented semantic skill matching, resume scoring, and personalized improvement suggestions.
- Designed an interactive web interface for uploading resumes and generating instant feedback.

RAG Document Assistant | *Python, LangChain, ChromaDB, FastAPI*

- Developed a Retrieval-Augmented Generation (RAG) pipeline for querying PDF documents using vector search.
- Integrated embedding models and LLMs to generate context-aware answers with cited document chunks.
- Exposed the pipeline through REST APIs for seamless frontend integration.

Stock Portfolio Tracker | *React, FastAPI, PostgreSQL*

- Built a full-stack portfolio tracker supporting stock watchlists, holdings, and profit/loss analytics.
- Integrated real-time market data APIs to display live prices and portfolio performance.
- Designed responsive dashboards for portfolio insights and investment tracking.

URL Shortener | *Java, Spring Boot, Redis, PostgreSQL*

- Developed a scalable URL shortening service with REST APIs, custom aliases, and expiration support.
- Implemented Redis caching to reduce database lookups and improve response latency.
- Tracked click analytics including visit counts and usage statistics for shortened links.

Technical Skills

Languages: C++, Java, Python, SQL, JavaScript

Backend: Spring Boot, FastAPI, REST APIs

AI & GenAI: LangChain, RAG, Vector Databases, OpenAI API

Databases: MySQL, PostgreSQL, Redis, ChromaDB

Developer Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Compiler Design

Extracurricular Activities

- Strength Training & Fitness
- Content Creation and Video Editing
- Exploring Backend Development, AI, and Emerging Technologies
- Continuous Learning through Technical Projects and Self-Study
